

DST4H

DMX/AC Power Splitter/Booster

The DST4H is a handy 4-channel portable splitter / booster of the DMX signal and AC power. Every DMX output features LED indication of the DMX status and is optically isolated up to 1000V. The unit also provides a true output for easy daisy-chaining of other DMX devices. Every AC Power output contains a Power OUT Neutrik PowerCon connector that is capable of maintaining up to 16A current.

Unit can be easily mounted on truss using SRS straps (included) or M10 clamp (not included). The DST4 comes with 3- or 5-pin XLR connectors or a combination of them.
