

DST4W-PRO DMX Transceiver

The DST4W is a handy 4-channel portable splitter / booster of the DMX signal and receiver of the W-DMX signal. The DST4W PRO version also works as a transceiver of the W-DMX signal. Every output features LED indication of the DMX status and is optically isolated up to 1000V. The unit also provides a true output for easy daisy-chaining of other DMX devices.

Unit can be easily mounted on truss using SRS straps (included) or M10 clamp (not included).

The DST4W comes with 3- or 5-pin XLR connectors or a combination of them.

Power supply

AC 100-255V / 50-60Hz, 5W

Operating temperature

-20 °C to +40 °C

Housing

Aluminium; gray powder coating

Dimensions & Weight

1.8kg

Warranty

Life-time

DST4W-PRO features:

- Over-voltage protection of the DMX inputs & outputs
- 4 optically isolated/boosted outputs
- LED indication of the DMX line
- Wireless DMX from Wireless Solution or LumenRadio
- M10 thread for C-CLAMP

DMX input/output:

- 4x USITT DMX 512
- ESD protected to 10kV
- Each one optically isolated up to 1000V
- Each one equipped with a separate line driver
- DMX line indication status with two data LEDs
