

PMC2-DV-CEE

Wall-mount direct motor controller

The PMC-DV motor controller was designed to control up to two electrically compatible direct voltage motors separately or simultaneously using the switches located on the front panel of the controller.

The PMC is equipped with the Manual Phase Align [MPA] module that allows swapping between phases easily by rotating pins L2 and L3 on the main connector.

All electrical components carry their own individual cSA/UL and CE and comply with the European Directives.

All components are housed in a robust box with powder coating.

Power supply

AC400V / 40-65Hz, CEE16A/5p

Operating temperature

-20 °C to +40 °C

Housing

Steel; with gray powder coating

Dimensions & Weight

200x347x116mm excluding cables and plugs, 5,4kg

Warranty

2 years

PMC2-DV features:

- Controls up to 2 direct voltage hoists
- Protection of outputs:
MCB16A and RCD 30mA
- Manual Phase Align [MPA] using power input connector
- Hoist types: BGV D8, BGV D8+
- Hoist connection: CEE16/4p or CEE16/5p on request
